## 1. Introduction

Chitrakoot has been a symbol of sublime culture and social order since ancient times. This idyllic pilgrim resort is known for various places associated with Lord Ram, besides one of the most ancient centers of education and research. Maharishi Atri and Anasuya founded the first educational centre of the world at Chitrakoot. This holy place of Chitrakoot has been a place of 'Sadhana' for great saints and Rishi's like Maharishi Sutikshna, Bharadwaj, Sarbhanga and Balmiki. Students from all parts of the country would come to the various ashramas of Rishis and Munis. Lord Ram imparted the message of creating sustainable social structure at Chitrakoot through participatory approach of the natives and other beings. Mahakavi Tulsidas received inspiration to write the epic Sri Ramacharita Manas, which optimizes ideal life in society.

With passage of time and depletion of resources, development of the Chitrakoot was affected. The villages are constrained due to lack of proper growth of Agriculture and agro-enterprises. To create enlightened future citizenry and also to realize the Gandhi ji dream of rural development, Mahatma Gandhi Chitrakoot Gramodaya Vishwavidyalaya was established on 12th Feb. 1991 on the banks of the holy river Mandakini through a separate MP Govt. Act (9, 1991) on the auspicious day of Mahashivaratri at Chitrakoot, Distt. Satna (M.P.). The main objectives of the University are to provide education and dissemination of appropriate technology.

Gramodaya University's activities are based on rural development. For more than a decade, its constructive indelible impression is felt in all the dimensions of rural development through its education, research and extension activities. The University creates human resource, develops appropriate technology, conducts research and extension and sustainable techniques for rural livelihood and proper management of rural resources, and it also imparts mass education for the empowerment and awareness of the rural population including women. The University has taken keen interest in exploring alternative sources of energy, developing skills in rural artisans.

The Mahatma Gandhi Chitrakoot Gramodaya Vishwavidyalaya has jurisdiction in the entire state of Madhya Pradesh. The University is making efforts to establish its centre at various places.

The University has a great role to play in the field of rural development through higher education and also in preparing innovative models of rural development. The University is presenting a new vision with a judicious blend of Indian culture and modernity for sustainable rural development.

## **2. Aims and Objectives**

The University receives inspiration for rural development in consonance with the vision of Mahatma Gandhi. The University is mandated to evolve, promote and impart higher education so as to take up emerging challenges for transformation of rural areas. It undertakes academic, research, extension and training programmes for the empowerment of the people with a view to ensuring free flow of knowledge, techniques and technologies as a two-way process for betterment of rural life. It provides training facilities to personnel engaged in rural development in collaboration with the state government. The University provides consultancy in all aspects of rural development. The University undertakes monitoring and evaluation of national and state-level development programmes, shares ideas and experiences in rural development work.

## **3. Activities**

The University has three major activities: education, research and extension. With a view to creating desirable human resource for rural development, the University offers many UG and PG programmes, diploma and certificate courses through regular and distance mode in the field of Management, Sciences, Technology, Agriculture, Animal Husbandry, Health &

Environment, Public Administration, Arts & Designing, Yoga, Ayurveda, Social Sciences, Languages and Culture.

The University's thrust is on action-oriented research. The aim is to see that the research findings in the field of science, technology, arts and social sciences are extended to solve the practical day-to-day rural problems. The University promotes research in the area of alternative sources of energy, qualitative improvement in rural products, inventing new tools and equipment for agriculture, health and hygiene, eradication of rural unemployment, women empowerment, conducting experiments in traditional knowledge and sciences, modern techniques of agriculture, development communication and preservation and propagation of the regional folk art forms.

Extension programme promotes and assists self-help groups in eradicating the menace of rural unemployment, collecting and maintaining data and information of the rural areas, preparation, implementation and evaluation of government and non-government schemes, organizing seminars, conferences, workshops and meeting of locals.

The University conducts its activities in the whole country in collaboration with many leading government and non-government organizations. The University has left its indelible mark in the field of rural development through its education, research, extension and other rural-oriented programmes.

#### **4. Salient Features**

The various educational programmes being offered at the Gramodaya University have many unique features. The students get an opportunity to learn under the supervision of competent teachers in the serene environs of the campus. All the educational programmes comprise components like personality development, communication skills and entrepreneurial quality. It is for this reason, that many leading institutions visit us for campus interview.

The University runs its educational programmes in the camp-campus mode keeping in view the need of rural development. This gives the students an opportunity to conduct practical study in villages as a means of healthy escape from the monotonous routine classes. In the competitive world of today, which much depends on one's communication skill, computer training is imparted along with the teaching of English, Hindi and Sanskrit. Remedial classes for the students of Science, Engineering and Technology are also organized.

The University imparts quality knowledge (both theoretical & practical) that most of the students after completing their study are equipped either to take up job with government or non-government organizations or set up their own business.

The University has always seen values and social responsibilities (VSR) as an integral part of Higher Education, and hence, it is a compulsory component in all the educational programmes. The objective is to inculcate a sense of values and social responsibilities among the students. The students not only gain thorough knowledge in their respective fields in the peaceful environments of the campus but also learn the essential components like self-reliance, personality development and entrepreneurship skill, a unique feature of the University.

The University's educational programmes are fully recognized by the statutory bodies like AICTE, NCTE, ICAR and UGC. The University students also get ample opportunities to participate in co-curricular activities like debates, declamations, elocutions, quiz, cultural activities, sports and NSS.

## 5. Resources and Facilities

**Agriculture Research Farm:** The University has a 189-acre agriculture farm with irrigation facility where the students conduct research to develop innovative techniques of agriculture and to display improved agricultural techniques.

**GIS Lab:** University has an up-to date and highly sophisticated Remote Sensing and Geo-Informatics lab.

**Computer Centre:** Computer training is an integral part of the all University programmes. The University has computer centre as a central facility. It has 300 computers with need-based updated software. Internet facility for all the students is also available.

**Audio-visual centre:** For optimum use of the media, the University has an audio-visual centre, where students are trained in photography and film making. A Video-Conferencing facility and online learning is also a distinctive feature.

**Laboratories:** There are labs for science, environment and technology educational programmes.

**Central Library (Jigyasa):** The University has a sophisticated (e-library) central library called "Jigyasa". It is fully computerized and gets UGC help through INFLIBNET

Programme. The library keeps a regular supply of research journals, abstracts, magazines and journals of various subjects, employment related magazines along with other national and regional newspapers.

**Yoga Centre:** Yoga training is compulsory for all the University students and the task of imparting theoretical and practical knowledge is being done by our competent Yoga teachers. The UGC has identified /recognized Yoga centre as a quality centre for human consciousness and Yoga Science education.

**Physical Education, Sports Centre:** Indoor and outdoor sports facilities exist for physical and mental alertness of the students. The students participate in the various sports competitions conducted by the university.

**Health Centre and Rasshala:** There is an Ayurveda centre for regular health checkup and treatment of students. It has "Rasashala" to prepare medicines by Ayurvedic methods.

**Music Training Centre:** The University has a music centre to give aesthetic shape to the student's musical aptitude. Folk music and puppetry are also associated with it. It also imparts special training in Sugam Sangeet.

**Other Academic Programmes:** Many other diploma and certificate programmes of interest are offered to promote the skills of the students.

**Assembly Hall:** The University has a well-furnished assembly hall to accommodate about 250 people, where seminars, conferences and other events are organized. Besides this the University has an open theatre full of greenery with space to accommodate 5000 peoples.

## 6. Other facilities

**Hostel and Living Places:** Separate hostel facilities are available in the campus for male and female students. Another boys and girls hostels are being added that will provide accommodation to 100 boys and 50 girls. Off-campus rental rooms are also available where students can live single or sharing basis.

**Transport facility:** The University has conveyance facility at a reasonable fare for the students.

**Canteen:** Canteen in the campus caters food and refreshments to the students.

**Scholarship/Fellowship:** SC/ST/OBC students are given scholarship/fellowship as per MP Govt. regulations. "Gaon ki Beti" Yojana launched by M.P. Govt. is also available. Besides SC/ST students can avail UGC sponsored fellowship to pursue Ph.D. Studies.

**Rail concession:** Student's rail concessions are provided as per the directives of the Railway Ministry, Govt. of India.

**Campus Interview:** Many leading institutes and companies visit the University for campus Interview and select talent from the management, science, technology and other vocational programmes.

## 1. FACULTY OF AGRICULTURE

### 1.1 Aims and Objectives

- Education and technology development for environmentally sustainable agriculture/veterinary/forestry/animal husbandry models suited to farmers of rainfed regions.
- Education and technology development for aromatic and medicinal plants and live stock management.
- Livelihood strategies for the landless and marginalized farmers through innovative bio-mass strategies, post harvest technologies and seed technologies.
- Entrepreneurial approach to agricultural education.
- Education and technology dissemination through extension services and management.
- Creation of hi-tech resource centers including watershed management technologies.

### 1.2 Departments

- Department of Crop Sciences
- Department of Natural Resource Development
- Department of Technology Transfer

### 1.3 Course Offered

#### ➤ Doctor of Philosophy

Agriculture Extension, Agronomy, Soil Science, Horticulture, LPM, Agriculture Biochemistry.

#### ➤ PG and UG Courses

S.No.	Name of the course	Eligibility
1	M.Sc. (Ag.) Extension	B.Sc.(Ag.)
2	M.Sc. (Ag.) Soil Science	B.Sc.(Ag.)
3.	M.Sc. (Ag.) Agronomy	B.Sc.(Ag.)

4	M.Sc. (Ag.) Horticulture	B.Sc.(Ag.)/ B.Sc.(Hort.)
5	M.Sc. (Ag.) Bio-Chemistry	B.Sc.(Ag.)
6*	B.Sc. (Ag.) Honours	10+2 PCM/PCB/Ag.

\*Admission through the entrance of state level

### **Admission Procedure:**

The Ph.D. Programme is regulated by the University Ph.D. Ordinance and follow as per ICAR rules and regulation. The University will conduct the Entrance Examination followed by Interview as well as direct interview for NET qualified students for the courses offered.

The admission in P.G. programme listed at S. No. 1 to 5 will be done through University Entrance Test which is being conducted on 30.07.2025 at University Campus, Chitrakoot. The subject allotment to the students will be done though the counseling on the basis of merit list.

For B.Sc.(Ag) Honours programme listed at Sl. No. 6, entrance test will be conducted by the Madhya Pradesh Employee Selection Board (MPESB) Bhopal and counseling through Mahatma Gandhi Chitrakoot Gramodaya Vishwavidyalaya, Chitrakoot, satna (M.P.).
